About me

I'm a UI/ UX designer with almost 5 years of experience in Mobile & web design, usability and interaction design. I love being involved in all aspects of visual design with a special focus on interaction design and usability. I'm particularly interested in contributing in all areas of the user experience.

I have extensive knowledge in effective wireframe, design, prototyping, and development. I'm passionate about turning complex concepts into experiences that will help companies reach their audiences in an engaging and innovative way.
